Gelato® Prophy Paste

Five Consecutive Top Prophy Paste Awards

Gelato Prophy Paste provides smooth, pliable and splatter-free application.

The 1.23% fluoride ion paste, 5-time winner of The Dental Advisor's Top Prophy Paste (2013, 2014, 2015, 2016, and 2017!), is perfect for high-luster polishing and stain removal, but it remains gentle enough on the enamel with minimal enamel loss.

Gelato comes in boxes of 200 individual disposable cups for convenient use. The disposable cups also eliminate cross contamination and include a prophy ring for ease of application on the patient's teeth. For more options, the paste comes in 6 ounce (exports only) and 12 ounce jars.

PREVENTIVES **CROSSTEX** **DentaPure**

twist^{plus} Oscillating Disposable Prophy Angles

twist^{plus} provides highly efficient and ergonomic polishing
twist^{plus} is a unique disposable prophy angle that moves in a 120° reciprocating (back-and-forth) motion instead of a traditional spinning motion. This patented mechanism greatly diminishes frictional heat while reducing the spatter of prophy paste, saliva, blood and other potentially infectious materials. The innovative ergonomic design optimizes comfort as well as visibility during procedures.

NEW

- 120° reciprocating motion allows for continuous-contact polishing with more control and reduced splatter.
- Small head design improves visibility and increases maneuverability.
- Tight cup seal on the angle's head reduces the chance of snagging soft tissues.
- Enhanced, fluted cup design for improved pick-up and interproximal polishing.
- Tapered and recessed grip design ensures a secure, comfortable grip.
- Robust gear mechanism provides smooth, continuous running.
- Soft prophy cup flares easily for efficient subgingival and interproximal cleaning.
- Tapered brush is ideal for use with ortho patients for easy access to areas between brackets, wires and bands.
