the SOLUTION:  **DentaPure**
Clean Water. Clear Choice.™

simple

- Installs in minutes
- Cost-effective
- Compatible with bottle and municipal systems
- Can use either tap or distilled water
- Once the DentaPure® cartridge is installed, no monitoring or shocking protocol is required for 365 days, or 240L of water if usage records are kept (life of the cartridge)

effective

- In independent ADA testing, the DentaPure cartridge performed at ≤ 10 CFU/mL*
- EPA registered to provide ≤ 200 CFU/mL**

safe

- Elemental iodine (I₂) is non-allergenic; safe for patients to ingest¹¹
- Contains no silver
- Compliant with the proposed EPA rule for Best Management Practices for dental amalgam waste¹²
- The pH of the DentaPure cartridge falls between 6 and 8 - within the EPA BMP acceptable range¹³
- No harsh chemicals
- Dispose of used cartridges in your regular trash

reliable

- Reduces the possibility of human error
- 1 DentaPure cartridge delivers safe, compliant water for 365 days, or 240L of water if usage records are kept
- Will not interfere with dental materials and bonding¹⁴
- No concerns with dental unit corrosion or etching¹⁵
- Crosstex reminds you when it's time to change cartridges

Clean Water. Clear Choice.™

twist[®] plus Oscillating Disposable Prophy Angles

twist[®] plus provides highly efficient and ergonomic polishing

twist[®] plus is a unique disposable prophy angle that moves in a 120° reciprocating (back-and-forth) motion instead of a traditional spinning motion. This patented mechanism greatly diminishes frictional heat while reducing the spatter of prophy paste, saliva, blood and other potentially infectious materials. The innovative ergonomic design optimizes comfort as well as visibility during procedures.

- **120° reciprocating motion** allows for continuous-contact polishing with more control and reduced splatter.
- **Small head design** improves visibility and increases maneuverability.
- **Tight cup seal** on the angle's head reduces the chance of snagging soft tissues.
- **Enhanced, fluted cup design** for improved pick-up and interproximal polishing.
- **Tapered and recessed grip design** ensures a secure, comfortable grip.
- **Robust gear mechanism** provides smooth, continuous running.
- **Soft prophy cup flares easily** for efficient subgingival and interproximal cleaning.
- **Tapered brush** is ideal for use with ortho patients for easy access to areas between brackets, wires and bands.

PROPHY PRODUCTS

Prophy Units

air abrasive

Aluminum Oxide (Zest Dental)
1lb

27 micron blue cap, bonding & cavity prep. General use, metal, porcelain, acrylic, composites & metals.

816-2200 \$26.95

50 micron red cap, Bonding & cavity prep. General use, metal, porcelain, acrylic, non-metal surfaces.
